Driven to DiscoverSM

CONTINUING DENTAL EDUCATION

32nd Annual Daniel E. Waite Lectureship in Oral and Maxillofacial Surgery

Friday-Saturday, April 21-22, 2023

McNamara Alumni Center, U of M Campus

Preliminary Program

Friday, April 21, 2023 - University Hall

6:00 PM Final registration and assembly

6:30 PM Dinner

7:00 PM

Residents' Research, Case Presentations and Innovative Endeavors

University of Minnesota School of Dentistry

Introduction by Robert Nadeau, DDS, MD

Director, Clinic, and Graduate Training Program, Oral and Maxillofacial Surgery

Mayo Clinic College of Medicine Residents' Insights

Introduction by Jonathan Fillmore, DMD, MD

Director, Oral and Maxillofacial Surgery Residency Program

Gundersen Health Systems

Introduction by Martin Koop, DDS

Director, Oral and Maxillofacial Surgery Residency Program

8:30 PM Adjourn

The roster of resident presenters will be available by early April 2023.

Saturday, April 22, 2023 - Thomas H. Swain Room

8:00 AM Final registration and assembly

8:30 AM MSOMS business meeting

9:30 AM

Welcome and introduction

Robert Nadeau, DDS, MD

9:35 AM

20 Years of Dead Bone—What have we learned? (MRONJ)

Thomas Schlieve, DDS, MD

Understand the history of medication related osteonecrosis (MRONJ) and osteoradionecrosis (ORN)

Learn the pathophysiology of MRONJ and ORN

Discuss the most current treatment concepts, prevention strategies, and long-term outcomes for MRONJ and ORN

10:30 Refreshment break

10:45 AM

Current Concepts in the Diagnosis and Management of Osteoradionecrosis

Thomas Schlieve, DDS, MD

11:45 AM Lunch and networking

1:00 PM

Oral Health Innovations That Will Shake Up Our World

Jeremy N. Krell, DMD, MBA

Consider how innovators across the world are approaching health and oral health problems from a vast array of perspectives and what are the leading growth areas

Map dental technology categories, sub-categories, and the synergy among startups within

Explore how to create a culture of innovation in your practice(s), group, or DSO and a workflow for the evaluation and adoption of groundbreaking technology

Envision your role in the changing landscape of oral health throughout your career

Consider how to capture the upside of innovations that you consume and how this impacts change management and incentives

Discuss how organizations pursue real inclusion, strength, and empowerment for untapped talent and underserved businesses in the oral health space, including, but not limited to, women-, LBGTQ+- and minority-owned businesses

Examine the technological advances that exist at the intersection of oral and systemic health

3:00 PM

Closing remarks and adjournment

Meet Our Keynote Speakers

Thomas Schlieve, DDS, MD, FACS, is an Associate Professor in the Department of Surgery at UT Southwestern Medical Center. He is also Director of the residency training program and the Medical Director for oral and maxillofacial surgery at Parkland Hospital. Dr. Schlieve holds a BS in biology from the University of Wisconsin. He earned his dental surgery degree at Marquette University and his medical degree at the Louisiana State University Health Sciences Center Shreveport School of Medicine. He completed a four-year residency in oral and maxillofacial surgery and an internship in general surgery at the University of Illinois at Chicago Medical

Center before continuing his training through an oral/head and neck oncologic surgery fellowship program at the University of Tennessee Medical Center and Cancer Institute

Dr. Schlieve is a Diplomate of and Examiner for the American Board of Oral and Maxillofacial Surgery and a Fellow of both the American Association of Oral and Maxillofacial Surgeons and the American College of Surgeons. He has lectured nationally and internationally and authored multiple scientific articles and textbook chapters in oral and maxillofacial surgery. He participates in community outreach efforts to raise awareness of oral cancer, teaches future surgeons, and leads continuing education courses for practicing physicians. Dr. Schlieve's clinical practice focuses on the surgical treatment of diseases of the oral cavity, head, and neck, including oral and tongue cancers; benign and malignant jaw tumors; salivary gland tumors; and osteonecrosis. His current research is focused on jaw osteonecrosis and oral pathology.

Jeremy N. Krell, DMD, MBA, is a general dentist with a combined business background. He is the Managing Partner of Revere Partners, the first independent Venture Capital fund focused on oral health, and RISE Health, the only inclusion-driven Venture Capital fund focused on oral health. Jeremy previously built out the Barchester Bay Group, a portfolio of over 35 ventures. Jeremy has held key operator roles at startups, including Head of Marketing and Chief Dental Officer at Simplifeye, based in NYC, and the Chief Marketing Officer of Verena Solutions, based in Chicago. He oversaw provider and clinical growth initiatives at quip, the oral health and subscription electric toothbrush company, and strategic provider innovation and development at Oscar Health (which had an IPO in 2021).

Dr. Krell has practiced general dentistry part-time for nearly a decade following his DMD at Tufts, sits on the Boards of healthcare and dental startups, and is an angel investor in approximately 30 companies. He has an 18+ year proven track record with startups through several successful multi-million dollar fundraises and acquisitions. Dr. Krell started his career with three web and graphic design startups and moved into luxury goods and commodity venture, DormAid, for college students. He later founded a venture incubator, CEO in A Box, following his MBA at Chicago Booth. He received The President's Volunteer Service Lifetime Achievement Award from President Joe Biden, Crain's Notable in Health Care, Top 100 Healthcare Visionaries award from IFAH USA, Top 100 Doctors from the Global Summits Institute for his commitment to oral health innovation, and 40 under 40 awards from Incisal Edge and YJP.

The University of Minnesota School of Dentistry has an obligation to disseminate new knowledge related to dental practice. Some programs offered through Continuing Dental Education may introduce materials, techniques or product references that are subject to debate. Sponsorship of courses by the University of Minnesota School of Dentistry does not necessarily imply endorsement of specific philosophies, procedures or products by this institution. Recognizing that you may be learning about new procedures, techniques and materials that you may not yet be familiar with, we ask that you take every precaution when implementing these new materials and techniques into your practice.

The University of Minnesota School of Dentistry is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
