

Bleaching, Occlusion, and Restorative Insights for the Entire Dental Team

Friday, February 23, 2024

Zoom Webinar

Van B. Haywood, DMD

Preliminary Program

8:30

Occlusal Disease, Splint Fabrication, and Occlusal Adjustment Technique

- Identify signs of occlusal disease on teeth and restorations, and determine appropriate treatment possibilities, from a splint to an occlusal adjustment
- Determine a predictable, simple method for mounting casts to fabricate a maxillary occlusal bruxism splint that is easy to fit and adjust
- Discuss sequential technique for an occlusal adjustment to create a mutually protected dental occlusion following basic guidelines

11:45

Break

12:30

Bleaching and Restorative Tips

- Describe seven different ways to make bleaching trays or impressions
- Demonstrate segmental matrix techniques and clinical applications
- Analyze the use of the 12-blade scalpel and different burs on finishing composites

3:45

Adjourn

There will be 15-minute breaks mid-morning and mid-afternoon.

Meet Our Presenter

Van B. Haywood, DMD, is Professor Emeritus in the Department of Restorative Sciences, Dental College of Georgia at Augusta University. An alumnus of the Medical College of Georgia School of Dentistry, he was in private practice in Augusta, Georgia. Dr. Haywood taught at the University of North Carolina School of Dentistry in Chapel Hill in Operative and Prosthodontics before coming to Augusta University. He co-authored the first publication in the world on at-home tray bleaching and an article on extended treatment of tetracycline-stained teeth using this technique. While he is most known for his research and writings on tray bleaching, he enjoys presenting worldwide on topics including fixed prosthodontics, occlusion, and esthetics.

The University of Minnesota School of Dentistry has an obligation to disseminate new knowledge related to dental practice. Some programs offered through Continuing Dental Education may introduce materials, techniques or product references that are subject to debate. Sponsorship of courses by the University of Minnesota School of Dentistry does not necessarily imply endorsement of specific philosophies, procedures or products by this institution. Recognizing that you may be learning about new procedures, techniques and materials that you may not yet be familiar with, we ask that you take every precaution when implementing these new materials and techniques into your practice.

The University of Minnesota School of Dentistry is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
