Meet Our Expert

Gigi Meinecke, RN, BSN, DMD, FAGD, maintains a private practice specializing in cosmetic dentistry and facial esthetics. Dr. Meinecke received her nursing degree from The College of New Jersey and her DMD from Boston University Goldman School of Graduate Dentistry. Her interest and activity in the field of facial injectables began in 2004. In addition to teaching Botox® and Dermal Fillers nationally since 2010, Dr. Meinecke is a leading figure in cosmetic and facial esthetic procedures. She provides the only injectable training that includes a cadaver review workshop. As a committed practitioner and advocate at the national level, Dr. Meinecke seeks to expand and elevate the standards of care in facial esthetics across the domains of dentistry, medicine, and other cosmetic specialties.

Dr. Meinecke is a shareholder with Allergan and receives honorarium from Allergan, Galderma and Solution Reach.

Disclosure Summary

It is the policy of the University of Minnesota Office of Continuing Dental Education to ensure balance, independence, objectivity and scientific rigor in all of its sponsored educational activities. All participating speakers, course directors, and planning committee members are required to disclose to the program audience any financial relationships related to the subject matter of this program. Relationships of spouse/partner with proprietary entities producing health care goods or services should be disclosed if they are of a nature that may influence the objectivity of the individual in a position to control the content of the CDE activity. Disclosure information is reviewed in advance in order to manage and resolve any possible conflicts of interest. Specific disclosure information for each speaker, course director, and planning committee member will be shared with the audience prior to the speaker's presentation.

Continuing Dental Education Staff members have nothing to disclose.

The following information was received from our speakers for this course. It is not assumed these financial interests or affiliations will have an adverse impact on course presentations. They simply are noted here to fully inform course participants.

Indicated no relevant financial interests. Speaker does not intend to discuss an off-label/investigative use of a commercial product/device.

The University of Minnesota School of Dentistry has an obligation to disseminate new knowledge related to dental practice. Some programs offered through Continuing Dental Education may introduce materials, techniques or product references that are subject to debate. Sponsorship of courses by the University of Minnesota School of Dentistry does not necessarily imply endorsement of specific philosophies, procedures or products by this institution. Recognizing that you may be learning about new procedures, techniques and materials that you may not yet be familiar with, we ask that you take every precaution when implementing these new materials and techniques into your practice.

The University of Minnesota School of Dentistry is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
