Learners to Leaders Scholarship
Support Means the Best and
Brightest in the Field Tomorrow

Dear Friends,

I am deeply grateful for the many donors who entrusted the School of Dentistry with their gifts in 2022. Your generous giving resulted in \$5.3 million dollars. These transformative contributions help us to attract and retain faculty, fund research, enhance our facilities, serve our community, support students, and more.

The annual Donor Impact Report serves to reflect the impact of your giving. This 2022 report highlights that the call for scholarship support is being resoundingly answered by our donor community. The Learners to

Leaders, Drive for School of Dentistry Students campaign is going strong. Over \$4 million was donated in CY2022! Each and every donation is an important investment in the next generation of dental leaders.

Thank you for partnering with the School of Dentistry. We are grateful for you!

Warmest regards,

Keith A. Mays, DDS, MS, PhD
Dean

Your Gift Impacts Students Today and Tomorrow

"I would like to thank you for the scholarship that I was awarded upon my acceptance into the School of Dentistry. This funding helped to lift a bit of the financial burden off of my shoulders and for that I will be forever grateful."

Sophie Chweya, DDS '26

"Receiving the Holland/Jensen Scholarship will not only ease my educational financial burdens, but also help me maintain financial stability as I begin my professional career as a dental hygienist. My goal as a dental hygienist is to work in a community clinic setting to provide oral healthcare to those who need it, but are not always able to afford it."

Andrew Arthur, BSDH '23

"I received so much, and I'm very fortunate to be able to be who I am and do what I do. I think that it's only fair to give back to those who need it. I want to be that support for the current students, too."

Dr. Geetha Damodaran
